

ABSOLUTELY WILD UNFILTERED

TASTEFUL WILD HARVESTS

Wild harvests provide us with valuable micro-elements in their purest form and at the highest natural levels of concentration.

Organic Birch Water

A traditional
natural drink

For many generations in Northern and Eastern Europe, birch water is harvested for a few weeks in the spring by tapping sap from the tree trunk. During this period, the trees are filled with vitality.

- high manganese content
- not from concentrate
- carefully pasteurised
- hand harvested
- low in calories
- undiluted
